August 2011 No220

(August- January 2012)

LIMITATION OF LIABILITY

(40+ years in the seed business)

In the event of any seeds sold or agreed to be sold by Asian-Seed Ltd not complying with the express terms of the Contract of Sales, or any seeds proving defective in variety purity, we will at our option replace the defective seeds free of charge to the buyer or will refund all payments made to us by the buyer in respect of the defective seeds and this shall be the limit of our obligation. We hereby exclude all liability for any loss or damage arising from the use of any seeds supplied by us, and for any consequential loss or damage arising out of such use or any failure in the performance of or defect in any seeds supplied by us, or for any such replacement or refund as aforesaid. The price of such seeds would be much greater if a more extensive liability were required to be undertaken by us. On all sales made the obligation is on the purchaser to cover the insurance, we do not insure unless requested to at each purchase. Minimum packet cost is \$6.00 + gst. (R)=registered item (AS)= Asian Seed line. All seed must be trial grown first before any commercial production is undertaken to ascertain its purity and suitability for you.

Our Seed is prohibited for use as seed for reproduction minimum \$10,000.00 fine plus all costs will be applied for each violation. All sales are made on the basis of the above terms, which are accepted by all buyers when placing orders or purchasing seed.

TERMS AND CONDITIONS

- 1 All seed invoiced and supplied will be billed on a 20th following basis to current account holders. That is, all invoiced items are due for payment by the 20th of the following month from the invoice date. If after this time the invoice has not been paid, interest will be charged at 5% per month or portion thereof until all of the outstanding debt has been fully paid. Debt collection and recovery costs and fees are extra and will always be at the Debtors expense. All cheques / payments to be made out to Asian-Seed. International clients can either TT the payment or arrangements made to cover Invoice in advance. Insurance is buyers care as usual. Pro forma Invoice issued on request. All seed must be trial grown first before any commercial production is undertaken to ascertain its purity and suitability for you.
n = special price no discount is allowed and is a prepaid price = payment before seed is dispatched, all prices are plus GST & freight.
- 2 If these conditions are not acceptable immediately return the unopened seed for credit and your account will be closed. All new customers are required to complete a credit application before accounts can be opened. Credit checks both personally and for a Co will be carried out to assure us that applicants wishing to purchase from us do have the ability to pay their accounts. Indents are non-returnable. AS= asian-seed select.
- 3 A discount of 15% will apply for prompt payment on seed. This offer is made on the Invoice issued with the seed at time of delivery. Provided all previous Invoices have been paid, the amount offered as a discount only is allowed to be deducted. 10% discount on credit card for seed.

Minimum Invoice amount is NZ \$50.00, Regular buyers this condition does not apply. The discount amount offered is on the seed cost excluding freight or gst/ taxes. Retail packs of most items are available @ NZ\$ 6.00 plus carriage and tax subject to availability, order asking for retail packet. Retail small packets payment must be sent with the order. All seed commercial or home garden must be grown on a small scale first to ascertain the suitability in your area before full scale planting or commercial planting's are undertaken. No discount on NZ\$6.00 pkts.

- 4 Any Discounts offered are strictly for payment within the days specified on each Invoice. After the specified Days the amount reverts to the full current price. Discounts do not apply to any special net arrangements for bulk customers or packet seed. Discount only applies to the Net Seed Cost.
- 5 Asian-Seed Ltd reserves the right to accept or decline the return of any seed, and to credit the Client's account for the cost thereof, in the event of any seeds returned. Specially indented orders, (for items not usually stocked by us), cannot be cancelled after they are ordered from our supplier, they also cannot be returned after delivery for credit or replacement. Authorised returns from wrong ordering of regular lines attract a 20% restocking fee. Opened packets are not allowed to be returned. Merchants account are current if used monthly to minimum trading amount.
All seed must be tried first to see if the line is suitable before commercial planting.
- 6 The cultural notes and descriptions given are given as a GUIDE ONLY. Different climatic conditions, personal growing habits, soil conditions and geographical diversity may not yield the same results described, and Asian-Seeds, or any of its representatives will not be held liable for any direct, indirect or consequential loss resulting from the use of the descriptions/notes/seeds contained herein. All sales are based on these conditions, growers must try items in ones own area to determine any seed crop suitability before commercial planting. Seed count if mentioned are a general guide only.

PRICES AND GST

Updates are issued to regular purchasers, ask for an updated copy, new items being added all the time or look at website always updated

Most seeds are imported from overseas, new crop rates, exchange rate fluctuations, along with many factors beyond our control will alter prices. Hence this price list is to be used as a GUIDE ONLY. Prices are subject to change without notice. GST will be added to all New Zealand invoices. Carriage, Customs charges, Agriculture fees, etc will be billed where applicable at cost. All prices have been established as at the current exchange rates on arrival of crops. New crop rates and other factors will alter all prices beyond our control, hence this Catalogue is to be used as a guide only. Special prices for bulk purchases are readily available on request. Freight charged at courier cost + \$4.00 for rural delivery. Discounts not available to Home Garden Packs.

Minimum acceptable Invoice value is NZ \$50.00 per Invoice

We do not knowingly sell any GE modified seed lines

Sales are made on the above conditions and are accepted by any purchaser buying from Asian-Seed Ltd

“Seed quality before price”

Asian-Seed

Policy statement from the Company on some very important matters and it is important that all seed lines be trialed for suitability before any commercial plantings are undertaken.

Genetically Modified organisms

We sell only normal seed practice breeding that is by old seed breeding selection of parent lines then standard parent crossing to make the hybrid. No engineered altered material is used. All F1 Hybrid material we sell is marketed in good faith as per above.

Seed Treatment

Should treatment be used on some seed lines it is used because of the wide belief that it will enhance the field germination of such lines or be helpful in pest management. T= treated U= untreated.

No Seed Treatment

We sell many non-treated seeds entirely suitable for Organic growing, if you require seed untreated just ask for its availability. Organic growers can make an economic garden from non treated seed .

Seed Quality

Seed quality is going to give you the best result, quality and vigour will shine through, this type of seed may be more expensive but in the end it is far more cost effective. Anyone can sell low cost seed but a few like ourselves can offer quality seed. Take the time to understand the difference it will be worthwhile. All seed must be tried before commercial growing, variability is expected and accepted due many factors involved in growing. All seed must be grown on a small scale for suitability before commercially grown.

Seed Production

Items marked # are items we have produced from selected stock seed, or we are exclusive distributors. Please ensure you read the previous page before purchasing, terms and conditions. All seed must be trialed first before commercial plantings.

Organic Seeds

Organic Seed lines are available, but due to excessive high cost of the certified paper work associated with organic seed we offer the grower a wide range of non treated seeds giving the grower value for money. This way the grower will be able to produce crops and make a profit with this type of seed.

PACKET Seed/Home garden packets available for most items at \$6.00 per packet plus post & gst
no discount on packet seed.

“Seed quality before price”

Cabbage Chinese 大白菜
Brassica rapa (m=1000 seeds)

Note Chinese Cabbage vernalization type seed. The bud differentiation and bolting result from low temperatures of 5deg C for a week or 10deg C for 2 weeks. In the spring cultivation under the low temperature it is important to select suitable varieties and the right sowing time. For the Spring harvest transplant seedlings with 5-7 true leaves and raised at 23-24C during the daytime and 12deg C. Make plants grow quickly with enough water and fertilizer after transplanting. All information is given as a guide only try first before commercial planting.

		25g	100g
