# Asian-Seed

50+ Years in the Seed Business

This price list cancels all previous lists and is subject to change without notice

January 2021 No. 569

Ensure you read and understand our following statement of limitation of liability and terms and conditions before purchasing. Once seed is purchased Asian-Seed Ltd understands you have read, understood, and agreed to our terms and conditions. No liability will be accepted.

## **LIMITATION OF LIABILITY**

In the event of any seeds sold or agreed to be sold by Asian-Seed Ltd not complying with the express terms of the Contract of Sales, or any seeds proving defective in variety purity, we will at our option replace the defective seeds free of charge to the buyer or will refund all payments made to us by the buyer in respect of the defective seeds and this shall be the limit of our obligation. We hereby exclude all liability for any loss or damage arising from the use of any seeds supplied by us, and for any consequential loss or damage arising out of such use or any failure in the performance of or defect in any seeds supplied by us, or for any such replacement or refund as aforesaid. The price of such seeds would be much greater if a more extensive liability were required to be undertaken by us. On all sales made the obligation is on the purchaser to cover the insurance, we do not insure unless requested to at each purchase. Minimum packet cost is \$7.00 + gst. (R)=registered item (AS)= Asian Seed line. All seed must be trial grown first before any commercial production is undertaken to ascertain its purity and suitability for you before each sowing. Any picture depicting our product is an indication of type only you must grow any seed line to test each purchase to check the items for your own use on each purchase.

**Our Seed is prohibited for use as seed for reproduction. Minimum \$10,000.00 fine plus all costs will be applied for each violation.**

**All sales are made on the basis of the above terms, which are accepted by all buyers when placing orders or purchasing seed.**

## **TERMS AND CONDITIONS**

1. Seed is prepaid before delivery. If after this time the invoice has not been paid, interest will be charged at 5% per month or portion thereof until all of the outstanding debt has been fully paid. Debt collection and recovery costs and fees are extra and will always be at the Debtors expense. No cheque payments allowed payment through Bank only. International clients can either TT the payment or arrangements made to cover Invoice in advance. Insurance is buyers care as usual. Pro forma Invoice issued on request. All seed must be trial grown first before any commercial production is undertaken to ascertain its purity and suitability for you on each sowing. With each purchase you must trial grow each lot before commercial planting.  
n = special price no discount is allowed and is a prepaid price = payment before seed is dispatched, all prices are plus freight & GST.
2. If these conditions are not acceptable immediately return the unopened seed for credit and your account will be closed. All new customers are required to complete a credit application before accounts can be opened. Credit checks both personally and for a company will be carried out to assure us that applicants wishing to purchase from us do have the ability to pay their accounts. Indents are non-returnable. AS= asian-seed select.
3. Discount of 15% will apply for prepayment on seed. This offer is made on the Invoice issued with the seed at time of delivery, provided all previous Invoices have been paid.  
Minimum Invoice amount is NZ \$100.00. The discount amount offered is on the seed cost excluding freight or gst/taxes. Retail packs of most items are available @ NZ\$7.00 plus carriage and tax subject to availability, order asking for retail packet. Retail small packets payment must be sent with the order. There is no discount on NZ\$7.00 packets. All seed, commercial or home garden, must be grown on a small scale first to ascertain the suitability and purity in your area before full scale planting or commercial plantings are undertaken on each sowing.
4. Any Discounts offered are strictly on prepayment specified on each Invoice. After the specified Days the amount reverts to the full current price. Discounts do not apply to any special net arrangements for bulk customers or packet seeds. Discount only applies to the Net Seed cost.
5. Asian-Seed Ltd reserves the right to accept or decline the return of any seed, and to credit the Client's account for the cost thereof, in the event of any seeds returned. Specially indented orders (for items not usually stocked by us), cannot be cancelled after they are ordered from our supplier, they also cannot be returned after delivery for credit or replacement. **Authorised returns from wrong ordering of regular lines attract a 20% restocking fee. Opened packets are not allowed to be returned. Merchants account are current if used monthly to minimum trading amount. All seed must be tried first to see if the line is suitable before commercial planting, on each purchase.**
6. The cultural notes, pictures and descriptions given are given as a GUIDE ONLY. Different climatic conditions, personal growing habits, soil conditions and geographical diversity may not yield the same results described, and Asian-Seeds, or any of its representatives will not be held liable for any direct, indirect or consequential loss resulting from the use of the descriptions/notes/seeds contained herein. All sales are based on these conditions, growers must try items in ones own area to determine any seed crop suitability before commercial planting. Seed count if mentioned are a general guide only.

## **PRICES AND GST**

7. Updated price catalogues are issued to regular purchasers. Ask for an updated copy as new items are being added all the time or look at our website which is regularly updated. Most seeds are imported from overseas, new crop rates, exchange rate fluctuations, along with many factors beyond our control will alter prices. Prices are subject to change without notice. GST will be added to all New Zealand invoices. Carriage, Customs charges, Agriculture fees, etc will be billed where applicable at cost. All prices have been established as at the current exchange rates on arrival of crops. New crop rates and other factors will alter all prices beyond our control. Special prices for bulk purchases are readily available on request. Freight charged at courier cost + \$9.30 plus rural delivery. Minimum price per packet is \$7.00

**Seed Treatment:** Should treatment be used on some seed lines it is used because of the wide belief that it will enhance the field germination of such lines or be helpful in pest management. T= treated U= untreated.

**No Seed Treatment and Organic Seeds:** We sell many non-treated seeds entirely suitable for organic growing. If you require seed untreated just ask for its availability. Organic Seed lines are available, but due to excessive high cost of the certified paper work associated with organic seed we offer the grower a wide range of non treated seeds giving the grower value for money and enable them to make a profit from their crops.

**Seed Quality:** Seed quality is going to give you the best result, quality and vigour will shine through, this type of seed may be more expensive but in the end it is far more cost effective. Anyone can sell low cost seed but a few like ourselves can offer quality seed. Take the time to understand the difference it will be worthwhile. All seed must be tried before commercial growing, variability is expected and accepted due many factors involved in growing. All seed must be grown on a small scale for suitability before commercially grown.

**Seed Production:** Items marked # are items we have produced from selected stock seed, or we are exclusive distributors.

**Seed borne disease:** All seed could possibly carry seed borne diseases. This is another reason to trial grow each lot prior to commercial planting of any seed crops. The most modern testing facilities are still unable to detect some diseases. All growers hereby accept that a risk of soil, seed, wind, mechanical, outside influence and more may all contribute to such crop diseases and loss of crop. Growers must accept responsibility. We accept no responsibility as stated in our limitation of liability.

**Genetically Modified organisms:** We sell only normal seed practice breeding that is by old seed breeding selection of parent lines then standard parent crossing to make the hybrid. No engineered altered material is used to the best of our knowledge. All F1 Hybrid material we sell is marketed in good faith.

Commercial Customers use our Free Phone line 0800 800 220 for commercial seed ordering, or we chat 21448183

### Indian Style

6224 Jade F1 Indian dark green, prolific, 26 x 7cm prickly \*\*. 127.10 236.50 350.40 519.00 **NEW**

NZ Government requires very expensive seed Testing before these seeds can be imported into NZ, these cost must be passed on you can be assured of genuine high class quality seed line on Bitter Melon.

*Germination 14 days 75-80%, give all Bitter Melon good conditions for optimum germination results, plugs/plants booking available growing conditions has a vital effect on the fruiting ability and final fruit size. Best minimum 23deg-30 over 24hr period temp variation will effect the plants ability to flower and set and ultimately the resulting crop. Pre soak seed. Grow Bittermelon in ground not growing Bittermelon or Egg plant before is best for a good crop. Being tropical seed lines they may require good cultural habit to replicate tropical conditions.*

 "Seed quality before price"

**Cabbage Chinese 大白菜***Brassica campestris (m=1000 seeds) average 350 seeds per gram*

Chinese Cabbage vernalization type seed. The bud differentiation and bolting result from low temperatures of 5deg C for a week or 10deg C for 2 weeks. In the spring cultivation under low temperature it is important to select suitable varieties and the right sowing time. For the Spring harvest transplant seedlings with 5-7 true leaves and raised at 23-24C during the daytime and 12deg C. Make plants grow quickly with enough water and fertilizer after transplanting. All information is a guide only, first try before any commercial planting as usual.

#### IMPORTANT CULTURAL DATA GROWING INFORMATION FOR A QUALITY RESULT (EGG PLANT)

Avoiding continuous cropping with Solanum species on same soil, supply adequate fertilizer and water. Pick off the buds and thin flowers early. Pick off all the side buds below the first flower of the main stem leaving one fruit for each inflorescence and thin the extra flowers and small fruit early to give all energy to produce and excellent full sized fruit. **Grow Egg plant in warm conditions and new ground each season for best results. Egg Plant is a Hot weather growing plant, not to be subjected to any cool conditions.** Egg plants can be pruned like Tomato plants to keep the fruit straight. Lengthy crop rotation to avoid verticillium wilt is a must. 6.2-6.8Ph soil range is preferred seed germ soil temp 27-32 after emergence 21c then plant out with minimum soil temp 16 degC. To much Nitrogen will often result in large bush plants that produce only small set of fruit.

<b>Fennel</b> 茴香		approx 280 seeds per gram			
<i>Foeniculum vulgare</i>

RED NOBLE NO.5

## 红贵5号

子弹头型 分枝力强 产量高

### 特性

1. 子弹头型单生朝天椒。抗病性强，干椒商品性好。
2. 长势旺，连续座果能力强，产量高，整齐度好。
3. 青果浅绿色，成熟后鲜红色，果形优美。
4. 果长4.6-5.0cm，果粗1.0-1.1cm，单果重2.8-3.0g。
5. 适宜全国各地栽培。

### CHARACTERISTICS

1. Bullet single Chaotianjiao type, mid-early maturity, 4.6-5.0cm length, 1.0-1.1cm diameter, 2.8-3.0g weight.
2. Wide adaptability, suitable for fresh and drying market.

Asian-Seed 8834

## BN5400 深绿大果型 高抗病

### GREAT WALL 5400

1. Deep green long bull-horned type, mid-early maturity.
2. 23-28cm length, 4.6-5.2cm diameter, 100-120g weight.
3. Good tolerance to low temperature in early green house.
